P.K. RAJ
Founder & CEO

Our Founder is a 5th generation modern day hard working farmer. He started farming at the age of 16 (Year 1972), always much interested in new technologies & farm Implements. He began to experience employment scarcity in the field & wanted to automate farming. After a lot of experimental trails & researches he founded SRI ANDAL AGRI BASED IMPLEMENTS to help farmers overcome these issues & to make agriculture grow globally.

We are the leading Manufacturer & Exporter of farm implements in the 21st century with our state of the art facility in Periyakumarapalayam, a village with a population of around 2300 people.
